Welcome to Sophomore English!

I am excited to welcome you as an incoming sophomores to Ascension Academy. Below you will find information on our summer Google Classroom and instructions on how to proceed in adding yourself.

Please take a moment to add yourself to our summer Google Classroom. This is where you will find your study guide, summer reading instructions, and other important information.

Google Classroom Code: qftgbvg

If you already have a school email address, please make sure that you use your school email address to sign up for our Google Classroom. If you have not received yours yet, please contact Mr. Bullard at bbullard@ascensionacademy.org, and he can get you set up.

Study Guide:

Your study guide is a PDF document located on our Google Classroom that will need to be converted to a Google doc in order to be filled in. Most of our assignments this year will be done in this manner and turned in via Google Classroom, so please make sure that you are familiar with converting PDFs into Google docs.

Instructions for the study guide:

1. Either create a Google doc to answer your study guide questions or convert the PDF into a separate Google doc.
2. Answer each question in complete sentences.
3. The page citation where you found your answer is not required but is recommended.

The study guide will be due the first day of class. At that point, we will walk through how to attach and submit an assignment on Google Classroom.

As you are reading this summer, I will periodically post questions or things to think about on Google Classroom. Prior to school starting on August 20th, you are required to address, comment or pose another question in response to at least one of my posts. Please be courteous of your peers' opinions when commenting on the posts. While it is fine to disagree with a stance, disrespect will not be tolerated.
