Ascension Academy's students engage in a rich program that cultivates creativity and builds intellectual capacity through academics and fine arts, as well as athletics and real-world experience in global citizenship. Ascension Academy serves sixth through 12th grade students in a challenging yet nurturing environment designed to equip them with the skills needed to excel in any post-secondary program in the nation.

Katy Engler, director of admission and marketing, explains, "We are building a foundation suited for each

student's unique talents so that they will be successful in college and beyond. We see these results more and more with many of our graduates completing their undergraduate work early and some with graduate work underway."

At Ascension Academy, it's about creating a comprehensive launching pad to the future. With 100 percent of the 2017 graduates receiving scholarships and attending top schools of choice, Ascension is where each student discovers their full potential.
